EXPERIENCE

Zuuba, Hyderabad, India — *Full Stack Developer*
March 2021 - February 2022

- Developed a module that shows HTML elements connected by lines, used LeaderlineJs (https://github.com/anseki/leader-line)
- Built an email builder that uses drag and drop functionality to render email, used the library called GrapesJs (https://grapesjs.com)

Docsie.io @ Likalo, Hyderabad, India — *Front End Developer*
May 2019 - February 2021

- Developed a product that used the rrweb (https://www.rrweb.io/) library that records and replays the feedback.
- Built stable automated end-to-end test suites using robot framework (https://robotframework.org/)
- Added unit test coverage for an open-source library (https://github.com/LikaloLLC/tourguide.js/)

Quanteon Solutions, Hyderabad, India — *Software Engineer*
MAY 2018 - April 2019

- Majorly worked on a GIS app that used leaflet.js library for interactive maps
- Built a full stack web application using MEAN stack in less than a month with basic functionalities such as image upload (used AWS S3 for storage), authentication, profile update and route navigation
- Worked on various small to large full stack MEAN/ MERN projects.
